Job Context

IDLC credit analytics team is seeking for Data Scientists/Analysts to implement IDLC's data strategy for data-driven credit analysis and to assess business impact through the use of data. The data analyst will resort to machine learning, ad-hoc analysis, automated reports, and dashboards to achieve that. The role will require extensive knowledge of statistics/machine learning and interaction across multiple cross-functional teams. Informing departments/divisions about the health of the business and eliminating bottlenecks is a core requirement. Additionally, the hire is required to formulate business problems and suggest data-driven solutions to stakeholders.

Job Responsibilities

- Build and review data-driven models/predictive models/scorecards.
- Conducting analysis of data (ad-hoc and regular).
- Solve business problems in coordination with the stakeholders

Employment Status

Full-time

Workplace

- Work at office

Educational Requirements

- Bachelor of Science (BSc)
- B.Sc/M.Sc in Statistics/Data Science/Computer Science or any quantitative field

Additional Requirements

- Age at least 22 years
- Experience in programming and querying languages (preferably R Programming Language) with a technical background.
- Knowledge of Building Machine Learning Models.
- Experience communicating complex research in a clear, precise, and actionable manner.

Job Location

Dhaka

Salary

Negotiable

Compensation & Other Benefits

- As per company policy.
